System Arrangement

Festoon System for Round Cables

System Components

A festoon system consists of the following components:

- 1 x end clamp
- X x cable trolley
- 1 x towing clamp or alternatively 1 x towing trolley
- Cable trolleys and towing trolleys require a running gear, which must be selected in addition to the trolley lower part
- Cable trolleys and towing trolleys are set to fit the exact track beam, in all cases the track beam must be specified
- The system components can be equipped with one additional cable support depending on the program.

To ensure optimum operation of the system, depending upon the application, various accessories must be added, e.g. flat or round cable clamps, towing ropes or damping devices.

The Order No. of the system components is determined by the combination of the following single sub-assemblies:

	Underpart with Cable Support	Running Gear	Track Beam Designation
Cable Trolley	•	•	•
Towing Trolley lower part	•	•	•
Towing Clamp	•	-	-
End Clamp	•	-	-

For order no. see the respective catalog pages of the programs.

The system components are completely assembled prior to delivery, cable trolleys and towing trolleys are adjusted to the respective track beam.

Cable Trolleys for Round Cables

Program 0366

Single Layer Cable Trolleys with Main Rollers $\varnothing 112 \text{ mm} / \varnothing 125 \text{ mm}$

Technical details

Cable supports	bolted to the center plate, lateral-loading and reinforced
Clamping bar	V-clamping (divided)
Buffers	cellular buffer on one side
Travel speed max. ¹⁾	300 m/min ²⁾
Load capacity max. ¹⁾	350 kg
Cable trolley underpart and running gear	hot-dip galvanized steel
Fasteners	stainless steel
Temperature range	-30°C to +50°C

¹⁾ depending on roller size/ roller material

²⁾ together with motorized trolleys

Ordering Example

Order No. 036623-93 - 755 - 0124

A cable trolley underpart with the following dimensions shall be used:

- Support diameter: $d_a = 460 \text{ mm}$
- Clamping width: $b_2 = 125 \text{ mm}$;
- Clamping height: $s = 46 \text{ mm}$

Order No. 036623-93 (chosen from catalog page 6)

The following running gear has been chosen:

Type HMG

- Cylindrical main rollers $\varnothing 112 \text{ mm}$ with PU bandage
- With horizontal guide rollers with polyurethane bandage
- With anti-lift rollers made of stainless steel

Order No. 755 (chosen from catalog page 7)

The following track beam has been chosen:

- IPE 240
- I-beam code 0124 (chosen from catalog page 7)

The order no. of the appropriate towing clamp is:

036643-93

As an alternative to the towing clamp a towing trolley can be used.

The order no. of the appropriate towing trolley is:

036633-93-755-0124

The order no. of the appropriate end clamp is:

036613-93

The order no. of the appropriate towing trolley for the connection to the catenary trolley is:

036653-93-755-0124

For calculation and selection please refer to the Engineering Guideline KAT0300-0101.

Towing Trolley for Catenary Trolley

Notes on the directional installation of the festoon systems towing trolley at the cranes catenary trolley:
Please reference the system drawing in your order documentation.

In general, it is critical to point out:
The buffer unit of the towing trolley mounted to the cranes catenary trolley is oriented so that the buffer unit is pointing toward the towing unit of the festoon system.

Notes:

- The table only refers to the cable trolley or the towing trolley under part
- The running gear must be selected and added. (see page 5 in this catalog)
- Additional supports are not available in this program

Cable Trolleys for Round Cables

Program 0375

Dual Layer Cable Trolleys with Main Rollers $\varnothing 125 \text{ mm} / \varnothing 160 \text{ mm}$

Technical details

Cable supports	bolted to the center plate, lateral-loading and reinforced
Clamping bar	V-clamping (divided)
Buffers	double-sided cellular buffer
Travel speed max. ¹⁾	300 m/min ²⁾
Load capacity max. ¹⁾	800 kg
Cable trolley underpart and running gear	hot-dip galvanized steel
Fasteners	stainless steel
Temperature range	-30°C to +50°C

¹⁾ depending on roller size/ roller material

²⁾ together with motorized trolleys

Ordering Example

Order No.

037523-9888 - 955 - 0220

A cable trolley underpart with the following dimensions shall be used:

- Support diameter: $d_a / d_{a2} = 460 / 360 \text{ mm}$
- Clamping width: $b_2 = 250 \text{ mm}$;
- Clamping height: $s / s_2 = 46 / 36 \text{ mm}$

Order No. 037523-9888 (chosen from catalog page 10)

The following running gear has been chosen:

Type HMG

- Cylindrical main rollers $\varnothing 160 \text{ mm}$ with Polyurethan bandage
- With horizontal guide rollers with Polyurethan bandage
- With anti-lift rollers made of stainless steel

Order No. 955 (chosen from catalog page 11)

The following track beam has been chosen:

- G 3192 200x200x8x12
- I-beam code 0220 (chosen from catalog page 11)

The order no. of the appropriate towing clamp is:

037543-9888

As an alternative to the towing clamp a towing trolley can be used.

The order no. of the appropriate towing trolley is:

037533-9888-955-0220

The order no. of the appropriate end clamp is:

037513-9888

For calculation and selection please refer to the Engineering Guideline KAT0300-0101.

Selection of Running Gears

Running Gear		Order No.	ø d [mm]	Main Roller Material Bandage	Weight approx. [kg]	Parallel-Flange	Preference Range I-Beams		
							I-Beam Code	Tapered-Flange	I-Beam Code
	Type HMG with cylindrical main rollers, horizontal guide rollers at the beam center web and anti-lift rollers	855	125	Polyurethan	40	IPB200	0220	-	-
		955	160	Polyurethan	44	G3192 200x200x8x12 W8x40			

Notes/design

- Main roller $\phi 125$ mm: anti-lift roller $\phi 63$ mm made of stainless steel, horizontal guide roller $\phi 80$ mm with Polyurethan bandage
- Main roller $\phi 160$ mm: anti-lift roller $\phi 80$ mm made of stainless steel, horizontal guide roller $\phi 112$ mm with Polyurethan bandage
- The rollers are equipped with precision ball bearings and additional sealing disks (2RS1), the ball bearings are lifetime lubricated and therefore maintenance free
- Running gear for other I-beam types or beam sizes on request

Motorized Cable Trolleys

Program 0380

Motorized Cable Trolley with 1.95 KW / 3 KW Drive

Technical details

Cable supports	bolted to the center plate, lateral-loading and reinforced Ø 460 mm
Clamping bar	V-clamping (divided)
Drive ¹⁾	1.95 KW / 3 KW
Travel speed max.	300 m/min
Load capacity max. ¹⁾	350 kg
Cable trolley underpart and running gear	hot-dip galvanized steel
Fasteners	stainless steel
Temperature range	- 25°C to + 50°C

¹⁾ depending on trolley size

Ordering Example

Order No.

038020-96 - 1WL - 66

A motorized cable trolley with the following dimensions shall be used:

- Support diameter: 460 mm
- Clamping width: $b_2 = 200$ mm;

Order No. 038020- 96 (chosen from catalog page 14)

The following additional configuration has been chosen:

- Motorized cable trolley's position in the system: 1
- With limit-Switch (sea side)
- With limit-Switch (land side)

Order No. 1 WL (chosen from catalog page 15)

The following buffer has been chosen:

- Cellular buffer Ø100x150 one side

Order No. 66 (chosen from catalog page 15)

The order no. of the appropriate trolley is:

036623-96-859-0124

Program 0366, 0375 and 0380

Towing Ropes

Order No.	ø d [mm]	L _{sch} [mm]	Material			Program
			Rope	Shackle	Fasteners	
031963	8/10	42	Galvanized steel	Galvanized steel	Stainless steel	0366 0375 0380
031964	10/12	42	PVC-coated		Seawater resistant aluminum	
031965/2	8/10	48	Stainless steel PVC-coated	Stainless steel	Stainless steel Seawater resistant aluminum	

Notes

- We recommend the installation of towing ropes for a speed from 50 m/min or a travel distance > 30 m
- The towing ropes are PVC-coated for a better protection against corrosion and to prevent the cables from damage
- For the calculation of the lengths please refer to our Engineering Guideline KAT0300-0101
- In case of order please state the lengths L_{zug} of the respective towing ropes

Damping Devices

Technical details

- Shock cord: rubber with plastic plait
- Console: hot-dipped galvanized steel
- Fasteners: stainless steel

Order No.	Number of Shock Cords	ø d [mm]	Program
031976-2	2	20	0366 0375 0380
031977-2	4	20	
031978-2	6	20	
031971	2	28	
031979	4	28	

Notes

- We recommend the installation of damping devices for high speed and/or short cable loops
- For the calculation of the length please refer to our Engineering Guideline KAT0300-0101
- In case of order please state the length of the respective shock cords L_{Gum}
- Number and diameter are defined by weight load, cable loop and speed

Accessories for Festoon Systems Program 0366, 0375 and 0380

Cable Organizers for Cable Loops

Order No.	ø d [mm]	b [mm]	s [mm]	Material	Weight [kg]
031942-0300x15	300	35	15	Rubber	0.90
031942-0500x15	500	35	15		2.10
031942-0700x15	700	35	15		2.35

Note

For cable loops > 4 m, the cable organizer in addition to the round cable clamps prevents an expansion of the cables at the lower section of the cable loop.

Additional Clamping Piece for Round Cable Clamps

Order No. 031899-065x020/514

Technical details

- Material: rubber
- Weight: 0.08 kg
- For Program: 0366 / 0375 / 0380

Note

Differences in diameter between adjacent cables of more than 15 mm require additional clamping pieces for a tight clamping.

Anti-Wind Damping Device

Order No. 03-D025-0096

Technical details

- Material:
 - Housing: glass fibre reinforced plastic
 - Rope: rubber
- Weight: 0.4 kg
- For Program: 0366 / 0375 / 0380

Accessories for Festoon Systems

Program 0366, 0375 and 0380

Round Cable Clamps

Technical details

- Clamping: aluminum/rubber
- Guiding profile: aluminum
- Fasteners: stainless steel

031947-26	25	4	26	031941-026x...	Plastic	Broad	0.015
031947-36	35	5	27	031941-036x...			0.020
031947-46	45	6	28	031941-046x...			0.025

Notes

- The above drawings are examples for illustration only
- Small version for cables with outer diameter smaller 14 mm and larger 22 mm
- Broad version for cables with outer diameter larger 14 mm and smaller 22 mm

Lifting Device

Order No.	Program	A _{max} [mm]	B [mm]	Weight [kg]	I-Beam
039030-1	0366	150	265	5	IPE 240 G3192 250x125x6x9 W8x18
039030-2	0375	220	311	6	IPB 200 G3192 200x200x8x12 W8x40

Note

The lifting device can be used for lifting of the cable trolley during replacement of main rollers or side shields.

Control Cabinet

Program 0366, 0375 and 0380

Festoon Control Cabinet

Type No.	05-S230-xxx
Main power	415 V 50 Hz
Control power	230 V 50 Hz
Inverter size	10 kW - 3x9A Sinamics
Interface	PROFIBUS®
Software module	integrated in separate PLC
Possible options	relais interface/UL/software in crane PLC/etc.
PLC brand	Siemens/ABB/TMEIC/Yaskawa
Control cabinet brand	Rittal
Rittal type	TS8806.500
Control cabinet color	7035
Cabinet dimension	H 2000 mm x W 800 mm x D 600 mm
Lamp and socket in cabinet	Rittal or similar
Control cabinet material	painted steel
Wire color criterion	DIN VDE / IEC
Terminal type	spring terminal and screw terminal

Wear Parts for Cable Trolleys

Program 0366, 0375 and 0380

Replacement Rollers for Running Gear Types HMG and HMP

Main roller cylindrical

Horizontal guide roller

Anti-lift roller

Anti-lift plate
for cable trolley

Order No.	Description	$\varnothing d$ [mm]	b [mm]	Thread M	Material Bandage	Weight [kg]
030130-112.1	Main roller cylindrical	112	27.5	M20	Polyurethan	0.8
030130-125.1		125	32.0	M20	Polyurethan	1.3
030130-160.1		160	50.0	M24	Polyurethan	2.7
030132-063.1	Horizontal guide roller	63	16.5	M12	Polyurethan	0.3
030132-080.1		80	20.0	M16	Polyurethan	0.5
030132-112.1		112	27.5	M20	Polyurethan	0.8

030124-080.1		80	24.0			0.8
030125-0001	Anti-lift plate for towing trolley / -clamp, end clamp, and towing trolley for catenary trolley	—	120.0	M8	Plastic	0.2
030125-0002	Anti-lift plate middle (for towing trolley, for catenary trolley)		194.0			
030125-0003	Anti-lift plate for cable trolley (motorized and non-motorized)		194.0	M12		
030125-0004	Anti-lift plate for towing trolley / -clamp 0366	—	194.0	M8	Plastic	0.2

Shock Cords

Technical details

- Shock cord: rubber with plastic plait
- Fasteners: stainless steel/hot-dipped galvanized steel

Order No.	$\varnothing d$ [mm]	Weight [kg/m]
031989-2	20	0.4
031996	28	0.6

Note

In case of order please state the lengths L_{Gum} of the respective shock cords.

Wear Parts for Cable Trolleys

Program 0366, 0375 and 0380

Cellular Buffer 100x150

Order No. 031997-100x150

Technical details

- Material: polyurethan
- Weight: 0.8 kg
- For program 0366
- For cable trolleys

Cellular Buffer 150x110x80

Order No. 031997-150x110

Technical details

- Material: Polyurethan
- Weight: 0.9 kg
- For program 0375

Buffer Unit

Order No. 039028

Technical details

- Material:
 - Housing aluminum seawater resistant
 - Rubber buffer
- Weight: 15 kg
- For program: 0366 (round buffers) and 0375 (rectangular buffers)
- Only for towing trolley and towing trolley for catenary trolley 0366

Buffer Unit

Order No. 03-K032-0045

Technical details

- Material:
 - cellular buffers
 - stainless steel (piston rods)
- Weight: 18.5 kg
- For program: 0366
- Only for towing clamps and end clamps

Wear Parts for Motorized Cable Trolleys

Program 0380

Driving Rollers for Motorized Cable Trolleys

Order No.	Description	ø d [mm]	b [mm]	Material Bandage	Weight [kg]
03-E210-0018	Driving rollers spare part 125x32PU	125	32	Polyurethan	2.4

Your Applications – our Solutions

Festoon Systems from Conductix-Wampfler represent only one of the many solutions made possible by the broad spectrum of Conductix-Wampfler components for the transport of energy, data and fluid media. The solutions we deliver for your applications are based on your specific requirements. In many cases, a combination of several different Conductix-Wampfler systems can prove advantageous. You can count on all of Conductix-Wampfler's Business Units for hands-on engineering support – coupled with the perfect solution to meet your energy management and control needs.

Festoon systems

It's hard to imagine Conductix-Wampfler cable trolleys not being used in virtually every industrial application. They're reliable and robust and available in an enormous variety of dimensions and designs.

Conductor rails

Whether they're enclosed conductor rails or expandable single-pole systems, the proven conductor rails by Conductix-Wampfler reliably move people and material.

Non-insulated conductor rails

Extremely robust, non-insulated conductor rails with copper heads or stainless steel surfaces provide the ideal basis for rough applications, for example in steel mills or shipyards.

Slip ring assemblies

Whenever things are really "moving in circles", the proven slip ring assemblies by Conductix-Wampfler ensure the flawless transfer of energy and data. Here, everything revolves around flexibility and reliability!

Motorized Cable & Hose Reels

Motorized reels by Conductix-Wampfler hold their own wherever energy, data, media and fluids have to cover the most diverse distances within a short amount of time – in all directions, fast and safe.

Spring Cable & Hose Reels

With their robust and efficient design Spring Cable and Hose Reels from Conductix-Wampfler are unbeatably reliable in supplying energy, signals, data and fluids to a vast range of tools, cranes and vehicles.

Inductive Power Transfer IPT®

The no-contact system for transferring energy and data. For all tasks that depend on high speeds and absolute resistance to wear.

Retractors and Balancers

Our wide range of high reliable retractors and balancers remove the load from your shoulders and allow you to reach top productivity.

Energy guiding chains

The "Jack of all trades" when it comes to transferring energy, data, air and fluid hoses. With their wide range, these energy guiding chains are the ideal solution for many industrial applications.

Jib booms

Complete with tool transporters, reels, or an entire media supply system – here, safety and flexibility are key to the completion of difficult tasks.

Conveyor systems

Whether manual, semiautomatic or with Power & Free – flexibility is achieved with full customization concerning layout and location.

www.conductix.com

Conductix-Wampfler

has just one critical mission:

To provide you with energy and data transmission systems that will keep your operations up and running 24/7/365.
