- High-grade polyethylene seals for low wear and long service life
- Plunger wiper reduces contamination, extending cylinder life.
- Collar and plunger threads and base mounting holes enable easy fixturing (on most models)
- Standard certified lifting eyes on cylinder models above 55 lbs weight. Interchangeable with optional CHM6 carrying handle
- Designed for use in all positions
- Baked enamel finish for increased corrosion resistance
- Includes CR400 coupler, dust cap and collar thread protector
- RC-Series model numbers, external dimensions and threads remain unchanged from prior RC-Series cylinders.

▼ *Foundation repair: to re-stabilize the foundation, the 308-ton silo needed to be lifted, levelled and structurally supported. 25-ton RC-Series hydraulic jacks were attached to a bracket on the top of each steel pier. Powered by a Z-Class pump, the hydraulic jacks applied 20 tons of force at each placement to lift the silo 2.0 inches.*

The Industry Standard General Purpose Cylinder

Saddles

All RC cylinders (except RC50 and RC101) have a hardened removable grooved saddle.

For tilt and flat saddles, see the RC-Series accessory page. All CATS-Series Tilt Saddles use a nitrocarburization surface treatment for improved corrosion protection.

Base Plates

To ensure the stability of cylinders for lifting applications, base plates are available for 10, 25 and 50-ton RC-cylinders.

Page: 16

Specialty Attachments

For solving all kinds of application problems, specialty attachments are available for 5, 10 and 25-ton RC-cylinders.

▼ *Synchronous lifting set-up for 200-ton cylinders. To ensure the stability of the cylinders, JBI25 base plates are installed.*

Single-Acting, General Purpose Cylinders

Optional Carrying Handle CHM6

The standard, certified lifting eyes on cylinders weighing over 55 lbs (RC5010 and heavier models) can be interchanged with optional carrying handle **CHM6**.
