

Pack Handling System

# IMV-370

### **IMV-370**

The IMV-370 from Laetus features a modular construction that makes it suitable for a wide range of solutions for the automatic aggregation of bundles. Its versatile configuration enables the printing and applying of labels in a variety of applications. High-resolution camera systems verify correct printing and serialization. The IMV-370 can be conveniently integrated into existing lines and meets all the requirements of secure automated product identification.

## Technical data

<b>Machine efficiency</b>	up to 20 bundles/min
<b>Belt speed</b>	adjustable from 10 to 30 m/min
<b>Conveying system</b>	standard bottom belt
<b>Machine direction</b>	left to right
<b>Marking systems</b>	prepared for the majority of thermal transfer OEM print modules
<b>Air pressure</b>	4 – 6 bar (internal pressure regulation)
<b>Voltage / frequency</b>	100...230V/50Hz
<b>Dimensions</b>	1400 × 1160 × 2175 mm
<b>Weight</b>	approx. 600 kg

## Optional

Print & apply: modified versions for front/back/side or over the corner application

### Convincing highlights:

- Secure Pack Handling System
- User-friendly operation of machine, printer and control camera from a central touch panel
- Protective housing
- GMP-compliant design permits easy access to all machine part
