GORE® STA-PURE Series PCS

## Features and benefits

- Pressure rated up to 7 bar (100 psi)
- Longest available tube life
- STA-PURE PCS's bore is three times smoother than thermoplastic elastomer tubing, with no grooves or cracking developing as flexing continues
- Spallation virtually eliminated, leaving high-value duty fluids uncontaminated
- Available in 20 different bore sizes, three wall thicknesses and three element lengths
- Operating temperature -20 °C to 80 °C
- STA-PURE PCS is a trademark of WL Gore & Associates inc.
